

## **S1/C Scholar's Challenge**

You will have 60 minutes to complete this challenge.

If you wish to make marking your answers easier, you may answer on [this spreadsheet](#). Please read the instructions on the first page of the sheet carefully.

GOOD LUCK!

1. Plasma transfusions would be MOST useful in treating a
  - a. viral respiratory infection
  - b. skin laceration
  - c. blood clotting disorder
  - d. broken bone
  - e. digestive enzyme deficiency
  
2. Based on his selected work, Frank Sinatra is LEAST likely to agree with the statement that
  - a. "The journey matters more than the destination."
  - b. "Regrets are an essential part of life."
  - c. "The ultimate virtue is to conform to social norms."
  - d. "Individuality is the most important."
  - e. "Only a resilient man can be successful."
  
3. Which of the following is a major risk of *in vivo* cellular reprogramming?
  - a. immune rejection
  - b. tumour growth
  - c. cellular senescence
  - d. anaemia
  - e. skin inflammation
  
4. A tourist undergoing a monastic retreat would MOST appropriately travel along the
  - a. Tianmen Mountain Road
  - b. Via Francigena
  - c. Pearblossom Highway
  - d. Amber Road
  - e. Champs-Elysees
  
5. In which of the following locations are you MOST likely to find a corduroy road?
  - a. a desert highway
  - b. a residential driveway
  - c. a cobblestone plaza
  - d. a swampy wetland
  - e. a mountain pass
  
6. The first long-distance car journey could be BEST described as a(n)
  - a. military manoeuvre
  - b. elaborate hoax
  - c. scientific expedition
  - d. royal procession
  - e. publicity stunt
  
7. The popularisation of Route 66 did NOT contribute to the success of
  - a. road trip culture
  - b. Interstate highways
  - c. cargo transportation
  - d. motels
  - e. fast food chains
  
8. In order to achieve digital immortality now, you would MOST likely have to
  - a. buy a virtual reality headset
  - b. share personal photos and videos
  - c. sign up for a cryonics program
  - d. undergo brain surgery
  - e. complete a personality quiz
  
9. You would MOST likely find "Stelvio Pass" on the bucket list of a(n)
  - a. automobile enthusiast
  - b. avid hiker
  - c. ancient historian
  - d. culinary tourist
  - e. modern architect
  
10. Compared to a hotel, a traditional motel is GENERALLY more
  - a. private and informal
  - b. lively and social
  - c. crowded and noisy
  - d. low-end and inconvenient
  - e. ornate and decorated

11. In *Blue Highways*, road trips are BEST described as a source of
- escape
  - introspection
  - connection
  - adventure
  - nostalgia
12. The ending of *Life of Pi* is BEST described as
- an exercise in belief
  - an anticlimactic event
  - full of plot holes
  - wasted potential
  - a message against animal cruelty
13. “*That isle of hunger, isle of pain,  
Isle you’ll never see again...*”
- The following line alludes to
- Ellis Island
  - The Great Fire of London
  - The Great Depression
  - New York City
  - the Irish Potato Famine
14. In what direction does the prefrontal cortex mature in?
- randomly
  - from left to right
  - from top to bottom
  - from right to left
  - from back to front
15. In *I’ll Wait for the Next One*, Philippe Orreindy juxtaposes
- modern technology with ancient tradition
  - a slow lifestyle with swift trains
  - genuine longing with a flippant prank
  - public spectacle with private sorrow
  - boundless optimism with tragic reality
16. Which of the following would be the MOST appropriate criticism of Harry Potter’s epilogue?
- It ignores the character’s war trauma.
  - It underdevelops magical worldbuilding.
  - It rushes the final battle resolution.
  - It overemphasises villain backstories.
  - It neglects secondary character arcs.
17. Based on the various endings of *Return of the King*, Peter Jackson is LEAST likely to agree with the statement that
- “Epic tales need multiple emotional resolutions.”
  - “Runtime should prioritise brevity over depth.”
  - “Trauma can affect a person their whole life.”
  - “A filmmaker needs to remain true to the original author’s intentions.”
  - “A filmmaker should take risks when ending a trilogy.”
18. Which of the following people would MOST likely relate to the Beatles’ “Strawberry Fields Forever”?
- a terminally ill child
  - a farmer with fields of crops
  - a frequent procrastinator
  - a struggling singer-songwriter
  - a drug addict
19. Which of the following artists from this year’s outline would be MOST concerned about the US’s current deportation systems?
- Los Tigres del Norte
  - Genesis
  - Adrienne Rich
  - Led Zeppelin
  - Black Sabbath

20. Which pair of selected works BOTH primarily rely on metaphors to convey meaning?
- Life of Pi* and *The Book of Mormon* (musical)
  - Ascending and Descending* and *The Bus*
  - "This Only" and "Sea Fever"
  - "This One's Mine" and "Count on Me"
  - Standard Station* and *Gare Saint-Lazare*
21. In the song "I Just Can't Wait to Be King", the individualism that Simba expresses is MOST similar to that expressed by which of the following artists?
- Frank Sinatra
  - REM
  - Norah Jones
  - Andrew Wyeth
  - Viktor Schreckengost
22. Which of the following inventions MOST directly led to the spread of European colonialism?
- the compass
  - macadam roads
  - artificial intelligence
  - the automobile
  - Gantt charts
23. The name of the app "Fog of World" MOST likely evokes
- exploration
  - pollution
  - confusion
  - nationalism
  - thrill
24. Compared to our previous perception of adolescence, modern research suggests that it
- ends later
  - ends earlier
  - starts earlier
  - starts later
  - has remained much the same
25. Which of the following pair of effects would teenagers MORE likely experience than adults?
- differentiation and dead reckoning
  - Hofstadter's law and neophobia
  - Braess' paradox and wanderlust
  - sunk cost fallacy and Hawthorne effect
  - Putt's Law and the 90-90 rule
26. Which of the following would you NOT be able to do without a prefrontal cortex?
- see a glass of water on a table
  - walk around your house
  - feel angry at your sibling
  - plan your revision schedule
  - hear an airplane taking off
27. Based on their selected work, REM would LEAST likely agree with the statement that
- "Sarcasm is too shallow to portray the end of the world."
  - "There's no way you can come back after a tornado."
  - "Pessimism isn't always that bad."
  - "The Cold War is not the end of the world."
  - "The Doomsday Clock should be much closer to midnight."
28. Calgary's 9th Avenue Parkade would MOST likely be used as a case study in designing
- adaptable sidewalks
  - diverse public spaces
  - multipurpose buildings
  - high-capacity parking lots
  - public transit hubs
29. A person viewing a Prairie style building is MOST likely to describe it as
- artificial
  - antique
  - ornate
  - soaring
  - flat

30. Which of the following pairs of poems are MOST similar in terms of form?
- “Travelling Again” and “Vacation”
  - “Let Me Begin Again” and “Sonnet 50”
  - “Because I could not stop for Death” and “Gitanjali 95”
  - “Death be not Proud” and “The New Colossus”
  - “Window” and “The Road Not Taken”
31. If mass tourism shifted more towards social media trends, which of the following locations would MOST likely see a DECREASE in visitors?
- an indigenous cultural trail
  - an orphanage that offers volunteering services
  - a well-known, conventional destination
  - an organic farm in the countryside
  - a forest with yoga programs and spa services
32. The MAIN difference between a mockup and a prototype is
- scale
  - quality
  - functionality
  - cost
  - aesthetic
33. A skeptic of Tesla’s Optimus robots is MOST likely to say that they are
- ugly and poorly designed
  - not actually functional
  - dangerous for home use
  - not in demand
  - too expensive to manufacture
34. The theorised effect of food pills on women’s rights can BEST be described as
- unpredictable
  - detrimental
  - negligible
  - controversial
  - beneficial
35. The mid-century dream of nuclear cars can BEST be described as
- impractical
  - revolutionary
  - innovative
  - overoptimistic
  - dangerous
36. The ending of *The Sopranos* would be BEST used as evidence to show that
- ambiguity can be more powerful than certainty
  - killing off the main character is a bad idea
  - finale episodes can overshadow the rest of the series
  - runtime is an important consideration
  - happy endings are no longer compelling to modern audiences
37. In terms of function, a throbber is MOST similar to a(n)
- indeterminate progress bar
  - skeleton screen
  - splash screen
  - placebo button
  - auxiliary game
38. Frederick Taylor’s ideal worker would MOST likely be
- strong and obedient
  - creative and intellectual
  - collaborative and communicative
  - knowledgeable and dutiful
  - responsible and disciplined
39. The early tactics of Fireflies.ai would MOST likely raise concerns about
- privacy
  - worker autonomy
  - accuracy
  - reliability
  - job displacement

40. If Will Crawford were alive today, he would MOST likely be concerned about
- the use of drones in modern warfare
  - the faking of tech demonstrations
  - the emergence of cellular reprogramming
  - the prevalence of stroads in different cities
  - the hostility of countries towards immigrants
41. The “bounce rate” of modern video games can be BEST described by
- the Hawthorne effect
  - the Pareto principle
  - Brooks’ law
  - Illich’s law
  - the Sashimi model
42. If you wanted to utilise the Hawthorne effect to help you study this year’s outline, you would PROBABLY
- study the most difficult topic first
  - give yourself regular breaks
  - make worst-case time estimates
  - ask your teammates to teach you
  - ask someone to supervise you
43. The inclusion of a slow-to-fast progress bar in a video game is MOST likely to increase
- player engagement
  - complaints
  - addiction
  - breakoff rates
  - playing time
44. An increase in a country’s GNI will MOST directly result in the increase of its
- Gross Domestic Product
  - Gini coefficient
  - Human Development Index
  - Happiness Index
  - Multidimensional Poverty Index
45. Which of the following people would be MOST likely to have supported the development of Grand Park?
- Henry Grabar
  - Sean Duffy
  - Brian Tracy
  - Frank Lloyd Wright
  - Alfred Speer
46. An intellectual society using the motto *in nullius verba* would MOST likely
- criticise ancient classics
  - honour royal decrees
  - promote conservative religious doctrine
  - celebrate poetic verse
  - publish political pamphlets
47. Which component of economic activity are you LEAST likely to see in GDP computations?
- savings
  - consumption
  - investment
  - government spending
  - net exports
48. Fukuyama’s concept of “the end of history” would be BEST used as evidence to show that
- philosophical ideas often evolve through reinterpretation across generations
  - revolutions inevitably lead to global peace and unity
  - capitalism and communism share identical historical goals
  - private property ensures the realization of rational freedom
  - the French Republic embodied the perfect form of government

49. In which scenario is the “lame duck theory” in politics MOST apparent?
- A cabinet member resigns due to a scandal.
  - A long-time president finds his influence gradually being reduced.
  - A congressman switches political parties mid-term.
  - A governor faces impeachment proceedings.
  - A senator gives a farewell speech on the chamber floor.
50. Which option BEST summarises Martin Luther King Jr.’s view on moral progress?
- “Moral improvement is a cyclical process.”
  - “Societies rarely change for the better.”
  - “A society becomes more just with time.”
  - “Law enforcement is the best tool to promote moral progress.”
  - “Progress happens only through violent revolution.”
51. Which sentence are you MOST likely to hear in a pitch for a piezoelectric sidewalk?
- “The tiles will glow in the dark without needing to be charged.”
  - “This sidewalk repairs its own cracks automatically.”
  - “Pedestrians will walk 20% more easily.”
  - “Every single step will be converted into usable energy.”
  - “It will charge your phone wirelessly as you walk.”
52. The idea that individual rationality leads to collective irrationality is BEST described by
- the Zeigarnik effect
  - the spread of Millerism
  - Zeno’s arrow paradox
  - teenage risk-taking
  - Braess’ paradox
53. Inductive charging roads rely on
- hydraulic pressure
  - thermal conduction
  - magnetic fields
  - solar energy
  - piezoelectric materials
54. Which of the following tenets of “Phoenix Project” philosophy is BEST exemplified by desire paths in cities?
- feedback
  - learning
  - improvement
  - flow
  - experimentation
55. “Robert Frost’s selected poem is about the futility of choice.”
- Which line from the poem should this person use as supporting evidence?
- “And looked down one as far as I could”*
  - “Because it was grassy and wanted wear”*
  - “Had worn them really about the same”*
  - “I doubted if I should ever come back”*
  - “Oh, I kept the first for another day!”*
56. *“An aged man is but a paltry thing,  
A tattered coat upon a stick, unless  
Soul clap its hands and sing, and louder sing  
For every tatter in its mortal dress,  
Nor is there singing school but studying  
Monuments of its own magnificence...”*
- This stanza comes from
- “The New Colossus” by Emma Lazarus
  - “Mother Country” by Richard Blanco
  - “The Journey” by Rustu Onur
  - “Sailing to Byzantium” by W. B. Yeats
  - “Tithonus” by Alfred, Lord Tennyson

57. While eventually released as an album, Hiroshi Yoshimura's *Music for Nine Postcards* was originally intended as
- radio interlude music
  - background music
  - musical therapy
  - a film soundtrack
  - a demo to a friend
58. The first iPhone prototype could NOT be described as
- crude
  - primitive
  - bulky
  - public
  - multifunctional
59. What was the MAIN reason why English politicians objected to the Grand Tour?
- It distracted young men from military training.
  - Young travelers were seduced by foreign women.
  - It spread dangerous revolutionary ideas among the youth.
  - Expenditures abroad did not count towards England's GDP.
  - Foreign art competed with English artists.
60. According to the Eisenhower method, if a task is urgent but not important, you should
- remove it
  - schedule it
  - simplify it
  - do it
  - delegate it
61. A student using the "Eat that Frog" method would MOST likely start their day by
- making a detailed to-do list
  - responding to friend's text messages
  - studying for their test tomorrow
  - organizing their desk drawers
  - reviewing yesterday's completed work
62. Which is NOT a reason why African-Americans partook in the Great Migration?
- Great floods ruined crops in the South.
  - Lynching was common in the South.
  - There were better housing conditions in the North.
  - There were many job opportunities in the North.
  - They were promised a cash bonus by the government.
63. What would the person who sang "Far From the Home I Love" MOST likely have celebrated?
- Seijin no Hi
  - bat mitzvah
  - debutante ball
  - Guan Li
  - quinceañera
64. The to-do lists of Leonardo da Vinci BEST exemplify his
- wealth
  - specialisation
  - discipline
  - influence
  - curiosity
65. Compared to Albrecht Dürer's version, Harry Louis Freund's vision of the apocalypse is MORE
- unexpected
  - spiritual
  - man-made
  - peaceful
  - horrifying
66. Sandro Botticelli is MOST likely to say that the end of the world will involve
- eternal darkness
  - cosmic collisions
  - divine punishment
  - human extinction
  - spiritual reconciliation

67. Which of the following is the GREATEST benefit of lean manufacturing?
- increased inventory levels
  - more revenue
  - reduced operating costs
  - improved supply chain resilience
  - greater worker specialisation
68. The word *kanban* translates MOST closely to
- inventory log
  - workflow chart
  - assembly line
  - billboard
  - time card
69. Compared to the final version, which is NOT an addition or change made to the demo of “Strawberry Fields Forever”?
- lyrical content
  - musical key
  - song length
  - drum accompaniment
  - a flute-like introduction
70. The choice of perspective in Van Gogh’s “Bedroom in Arles” BEST represents his
- interest in geometric precision
  - inner calmness
  - Impressionist style
  - emotional restlessness
  - critique of social norms
71. Compared to Matisse’s *Dance (I)*, a viewer would MOST likely describe *Dance (II)* as being more
- joyous
  - intense
  - disorienting
  - abstract
  - intricate
72. Compared to a Gantt chart, the harmonogram can BEST be described as its
- complement
  - improvement
  - replacement
  - alternative
  - predecessor
73. Vilfredo Pareto’s eponymous principle originates from his studies on
- bureaucracy
  - time management
  - construction projects
  - wealth inequality
  - production systems
74. Hofstadter’s Law and the 90-90 Rule both hint at the difficulty of
- estimating time
  - planning infrastructure
  - defining project scope
  - maintaining productivity
  - ensuring quality
75. “In the Bedroom Down the Hall” portrays the theme of mental health from the perspective of
- parents
  - onlookers
  - siblings
  - students
  - no particular person
76. Which of the following project pairs would create the MOST logical partnership?
- Make Sunsets | Fireflies.ai
  - EarthGuard | Archinaut
  - Just Walk Out | Lego Parking House
  - Berlin Brandenburg Airport | Studebaker Astral
  - Wardencllyffe Tower | Kola Superdeep Borehole

77. Below is the procedure for making a sandwich:

*“Slice the bread - 2 mins*

*Toast the sliced bread - 3 mins*

*While bread is toasted, prepare the filling - 2 mins*

*Once toasted, assemble the sandwich - 2 mins”*

What is the slack time of preparing the filling?

- a. 1 minute
- b. 2 minutes
- c. 5 minutes
- d. 7 minutes
- e. 9 minutes

78. Which artwork from this year’s outline would Umberto Eco MOST likely describe as a “painted list”?

- a. *Bedroom in Arles* | Vincent van Gogh
- b. *The Railway Station* | William Powell Frith
- c. *The Scream* | Edvard Munch
- d. *The Distant is Imminent* | Camille Seamm
- e. *Western Motel* | Edward Hopper

79. A caretaker government would be MOST appropriately implemented in a country with

- a. poor economic growth
- b. large cultural divides
- c. high crime rates
- d. highly partisan politics
- e. low internet access

80. *The Jupiter Effect Reconsidered* would be BEST used as evidence to show that people can

- a. trust scientific authority blindly
- b. profit off of negative publicity
- c. learn from past mistakes
- d. find hidden patterns in chaos
- e. ignore evidence that contradicts them

81. The great flood predicted by Johannes Stöffler was based off of

- a. astrology
- b. biblical interpretations
- c. hydromancy
- d. shamanic visions
- e. celestial gravitational influences

82. What advice is an Agile programmer most likely to give for developing software?

- a. “Document every line of code before you write it.”
- b. “Spend time working alone to avoid distractions from the team.”
- c. “It’s better to make the whole thing in one go.”
- d. “Don’t release prototypes too often.”
- e. “Make your plans adaptable to circumstances.”

83. If the Indonesian government abandons the construction of Nusantara, the city would suffer a fate MOST similar to

- a. Wonderland Amusement Park
- b. Parc des Celestins
- c. Ryugyong Hotel
- d. Hoover Dam
- e. Crazy Horse Memorial

84. The fuel primarily used for nuclear fusion experiments is

- a. uranium
- b. helium
- c. nickel
- d. hydrogen
- e. plutonium

85. Which of the following side-effects are you MOST likely to observe in a chemotherapy patient?

- a. hair loss
- b. weight gain
- c. allergic reactions
- d. voracious appetite
- e. hypersensitive immune systems

86. The main limitation of using exfoliation to produce graphene is
- toxicity
  - purity of the resulting graphene
  - cost
  - speed
  - energy consumption
87. If the Wardencllyffe Tower succeeded, it would be MOST closely analogised to a(n)
- electricity pylon
  - satellite dish
  - nuclear reactor
  - fibre optic cable
  - cell tower
88. The state of the werewolves in “Lucy’s Home for Girls Raised by Wolves” are MOST similar to
- the Black men in *Migration*
  - the passengers aboard the *St. Louis*
  - the protagonist in “The Medicine Bag”
  - Christina in *Christina’s World*
  - the speaker in “We Are Americans Now, We Live in the Tundra”
89. What is the *semitae* an early form of?
- the hotel
  - a rite of passage
  - the sidewalk
  - a prototype
  - a prediction
90. Which of the following people are MOST likely to be considered the “relative” of the Fifth Monarchy Men?
- Johannes Stöffler
  - Harold Camping
  - Albrecht Dürer
  - Montanus
  - Wodziwob
91. Which nation might Thomas Cole, based on his selected artwork, be MOST inclined to live in?
- Switzerland
  - China
  - United States
  - Ancient Rome
  - Soviet Union
92. Which of the following methods would MOST effectively mitigate the consequences of more turbulence?
- investing in Reflect Orbital
  - utilising Gantt charts
  - adopting the Waterfall method
  - encouraging usage of the risk register
  - following the main principles of Taylorism
93. Which of the following technologies are BEST described as “retrofuturistic”?
- a self-driving electric car
  - a voice-activated home assistant
  - a 3D television with immersive visuals
  - a smartphone with a holographic display
  - a flying locomotive powered by diesel
94. Which literary device is MOST prevalent throughout “We Real Cool”?
- apostrophe
  - synecdoche
  - stopped line
  - metaphor
  - parataxis
95. A sextant is to an astrolabe as
- Xbox is to DirectX Box
  - high-fidelity prototyping is to a mockup
  - Tesla’s self driving footage is to Musk’s robots
  - vibe coding is to regular programming
  - minimum viable product is to minimum marketable feature

96. Which of the following functions was typically NOT served by a *caravanserai*?
- facilitating trade between merchants
  - storage of goods
  - protection from bandits
  - accommodation for merchants
  - money lending services
97. Which of the following rites of passage is the Grand Tour most similar to?
- vision quests
  - walkabout
  - debuts
  - Seijin no Hi
  - moving out
98. The Waterfall method would be LEAST suited for a project that has
- a low budget
  - strict regulatory compliance
  - detailed documentation
  - evolving requirements
  - a linear development process
99. Based on their background, which of the following pairs of people would be MOST likely to agree with each other?
- Oliver Messiaen and Eric Barone
  - Otto Dix and Evan Hansen
  - Vilfredo Pareto and Olli Wang
  - Los Tigres del Norte and Sheldon Harnick
  - Harry Louis Freund and Czeslaw Milosz
100. Which option BEST describes the perception of moving sidewalks over time?
- much-hyped technology to niche transportation
  - expensive failure to global solution
  - urban nuisance to tourist attraction
  - essential infrastructure to forgotten convenience
  - futuristic fantasy to practical necessity
101. What is the MAIN theme shared by the works “Far from the Home I Love” and “Mother Country”?
- forced migration due to persecution
  - maternal love
  - patriotism for one’s country
  - migration as a painful sacrifice
  - cultural erasure
102. Based on her selected work, what would Rita Dove MOST likely think about the “Golden Age of Travel?”
- “I miss when travel was more diverse.”
  - “Airplanes ruined the romance of the journey.”
  - “The Golden Age is nothing but a myth.”
  - “Tourists these days need to be more civilized.”
  - “Modern travel is beautiful, too.”
103. Which of the following poems contain an unreliable narrator?
- “A stone I died” by Rumi
  - “Keeping Still” by Pablo Neruda
  - “Gitanjali 95” by Rabindranath Tagore
  - “The Road Not Taken” by Robert Frost
  - “Sailing to Byzantium” by W. B. Yeats
104. You would MOST likely experience the doorway effect while playing
- POOLS: The Game*
  - The Stanley Parable*
  - Galaxia*
  - Haunted Chocolatier*
  - Escape the Backrooms*
105. In the selected works of Richard Russo and Bic Runga, the use of the phrase “just drive” can respectively be described as
- romance and escape
  - anger and surrender
  - coercion and pleading
  - desperation and hope
  - routine and rebellion

106. Which is NOT a contributing factor to the longevity of Nishiyama Onsen Keiunkan?
- preservation of historical technology
  - adherence to tradition
  - use of natural assets
  - adaptability to changing times
  - flexible approach to succession
107. The Grand Tour is MOST similar to the modern concept of
- voluntourism
  - wellness retreat
  - social media tourism
  - ecotourism
  - edutourism
108. Which of the following changes are MOST likely to cause an increase in mass tourism?
- rising fuel costs
  - a decrease in the Passport Index
  - an improvement in weather domestically
  - an increase in paid leave
  - a decrease in airline competition
109. The time period of the “Golden Age of Travel” MOST closely aligns with
- the opening of Shimoda and Hakodate
  - the popularisation of nuclear-powered cars
  - the commissioning of Route 66
  - the construction of the Robie House
  - the writing of “Sea Fever”
110. Which of the following projects provide the MOST compelling evidence for project management techniques in ancient times?
- Crazy Horse Memorial
  - Neanderthal campfires
  - Lothal
  - the Roman Roads
  - the Statue of Liberty
111. The creator of *Beneath the Roses* would be LEAST opposed to works
- highlighting social issues caused by climate change
  - spreading pro-American propaganda
  - criticising the failure of the government in implementing social welfare
  - illustrating the beauty of liminal spaces
  - justifying teenage rebellion and risk-taking
112. If you asked Count Alexander Ilyich Rostov about his political views, what would he MOST likely say?
- “Communism is just so impractical.”
  - “Our nation has truly fallen from grace.”
  - “What’s the point of politics in such an irrational, absurd world?”
  - “I care more about keeping my friends and family safe than the government.”
  - “At least it’s not romanised.”
113. The doorway effect is to memory as
- AGI is to white-collar jobs
  - chickens are to stroads
  - “My Way” was to Frank Sinatra’s career
  - companies are to highways
  - cryonics are to lifespan
114. Paul Gauguin’s selected work would MOST likely resonate with an adherent of
- Christianity
  - Buddhism
  - Islam
  - Colonialism
  - Surrealism
115. The Motorola DynaTAC would BEST be described as the original prototype for the
- cellphone
  - gaming console
  - laptop computer
  - tablet
  - satellite radio

116. A software developer looking to speed up feedback loops would LEAST likely make use of
- storyboarding
  - minimum viable products
  - wireframing
  - vibe coding
  - high-fidelity prototypes
117. A person visiting Pompeii during the Grand Tour would MOST likely have been engaging in
- synaptic pruning
  - transshipment
  - dark tourism
  - ecotourism
  - dead reckoning
118. “Small worldness” is a term in neuroscience used to measure
- the ability to think critically
  - the age of a brain
  - the open-mindedness of a person
  - the health of a prefrontal cortex
  - how interconnected a brain is
119. Which real-life city is CLOSEST to the home mentioned in “Far From the Home I Love”?
- Kyiv
  - Warsaw
  - New York City
  - London
  - Jerusalem
120. Which artwork from this year’s outline could be described as “to scale”?
- Apocalypse '42* by Viktor Schreckengost
  - The Last Judgement* by Michelangelo
  - World War I Prints by Otto Dix
  - Rain, Steam and Speed* by J. M. W. Turner
  - The Great Day of His Wrath* by John Martin
